

Tom Brownback

Linda Brownback

TOM BROWNBACK, M.Ed., Licensed Psychologist and LINDA BROWNBACK, M.A., Licensed Psychologist
co-authors of Neurotherapy in the Treatment of Dissociation, Introduction to Quantitative EEG and Neurofeedback

and **THOMAS COLLURA, Ph.D., President of BrainMaster Technologies, Inc.**

Thomas Collura, Ph.D.

November 7-11, 2007, April 23-27, 2008, November 12-16, 2008

**INTRO-INTERMEDIATE NEUROFEEDBACK WORKSHOP
BY BROWNBACK MASON AND ASSOCIATES**

Workshop Cost: \$795.00* - Complimentary Lunches

Additional \$100 Discount for anyone registering 60 Days prior to Workshop

Affiliate Members of BrainMaster Technologies are eligible for a \$50.00 discount!

WHERE: Quality Inn & Suites, 4742 Brecksville Road, Richfield, Ohio 44286

Call (330) 659-6151 - 2 wks in Advance for \$72 Discounted Rate Complimentary Breakfast Voucher Included in Room Rate

For more information: CALL: STRESS THERAPY SOLUTIONS INC. 1-800-447-8052 or 216-766-5707 TODAY! or log on to www.stresstherapysolutions.com

Thomas Collura, Ph.D.
President, BrainMaster Technologies, Inc.

Wednesday, 9:00 a.m.- 5:00 p.m.
To fully understand the basic fundamentals, neurophysiology and principles of EEG and neurofeedback training, this free workshop is important to attend. Bring laptop and equipment if desired! New software will be demonstrated including autothresholding, session control session librarian, animation displays. This demonstration is to better understand how and why EEG biofeedback training is an important adjunct for home or practice. Remote Training will also be reviewed. No additional cost for this lecture. BrainMaster and NeuroPathways EEG system will be used.

Bill Mrklas,
Manager of Operations,
BrainMaster Technologies, Inc

Wednesday Evening 7:00 p.m.- 9:00 p.m. Bill Mrklas 2.0/2.5 BrainMaster software training step by step Part 1. Complimentary

Thursday Evening 7:00 p.m.- 9:00 p.m. Bill Mrklas BrainMaster 2.5SE Software training step by step Part 2. Complimentary

This workshop will demonstrate how to utilize the BMANS 300 item Intake Questionnaire together with a very specialized battery of standardized psychoeducational and continuous performance tests to generate client specific, 10-20 system-based profiles of neuropathology. These profiles will serve as templates or overlays which will be used to very precisely direct an in-depth analysis of the QEEG through the interpretation of various database and non-database neurometrics from a 10-20 system perspective. This analysis is then used to create highly customized placement and frequency specific training programs. These client specific training programs integrated within the BMANS system have resulted in a 95+% training success rate over the last two years. The BMANS system is based in a series of eight manuals. Content from each of the eight manuals is woven throughout the four-day, 32 hour training.

Thursday, 8 A.M.-5:30 P.M.

Overview of Workshop Goals with Attendee Input to Customize Content - Presented by Brownback & Mason
Secret to Our 95% plus Success Rate—The Brownback, Mason and Associates Neurofeedback System: A Success Rate That You Also Can Achieve
Functions, Pathways and EEG Frequencies at Each of the International 10-20 System Placements

Friday, 8 A.M.-5:30 P.M.

Neuropathologies - Presented by Brownback & Mason (Dysfunctional: Microvoltages, Peak Frequencies, Asymmetries and Coherences Associated with International 10-20 System Placements.
The BMANS Neurodiagnostic Evaluation Procedure within a 10-20 System Framework
Overview of Procedure
The Categories of Neuropathology
The Categories of Neuropathology with Questions

Saturday, 8 A.M.-5:30 P.M.

Indepth Analysis of the Quantitative Electroencephalograph using Multiple Database and Nondatabase Procedures - Presented by Brownback & Mason for Various Neuropathologies (For the purpose of the workshop we will primarily focus on five of these categories of neuropathology: ADD, depression, OCD, LD visual and GAD.)
Overview of the Procedure
QEEG Database Descriptions
QEEG Non-database Descriptions
The BMANS QEEG Analysis Procedure
Neurofeedback Training Procedures Utilizing Fully Customized 10-20 System Placement and Bandwidth Selections, Constantly Updated

Sunday, 7:30 A.M.-5:30 P.M.

Spirituality and the Brain: A Meditation on the Brain and Its Creator (Optional) - Presented by Brownback & Mason
How to Adjust Thresholds for Audio Feedback and Percentage of Time Counters
Motivation Techniques
Mastering Independent Neurofeedback Training With BrainMaster, Thought Technology and Lexicor.
A Cognitive, Affective and Behavioral Checklist for Tracking Neurotherapy Progress
The Bio-Psycho-Socio-Theological Cognitive Behavioral Framework—The Basics

PLEASE BRING LAPTOP AND EQUIPMENT IF POSSIBLE

To register, or for more information, please call Stress Therapy Solutions today @ 1-800-447-8052 or 1-216-766-5707.

Limited Seating due to hotel space restrictions!

* Cancellation Policy: - No returns, refunds, exchanges 30 days prior to event. We will apply unused registration fee to identical future workshop if used within one year.

Master Card and Visa accepted.

This program will be accessible to individuals with disabilities, according to the requirements of the Americans with Disabilities Act.

Please notify us when registering of any special needs you may require.
